ABOUT BRITTANY

Just ask my friends, family or co-workers, they'd describe me as energetic, ambitious, sociable, and creative. I am a person who is driven to complete tasks while also excelling in their execution. I own my responsibilities and constantly challenge myself to deliver higher standards. I strive to be an enthusiastic and involved team player, not simply a spectator. I am active, not passive; constantly moving forward and never content to "go with the flow" or slip backwards. I am an eternal optimist, a definite self-starter and always looking for opportunities to develop myself in both knowledge and character.
